Education

Adani University

B.Tech in Computer Science and Engineering (Artificial Intelligence and Machine Learning)

2023 - 2027
CGPA: 7.48/10

Technical Skills

Languages	C++, TypeScript, JavaScript, Python, Java
Frontend	React, Next.js, Tailwind CSS, HTML, CSS
Backend	Node.js, Express.js, Hono, FastAPI, REST APIs
Databases	PostgreSQL, MongoDB, Supabase, Neon
Tools & Cloud	AWS, Docker, Prisma, Git, GitHub, Linux/Unix, Vercel

Experience

Appendo Consulting and Service

UI/UX Intern

May 2026 - Jul 2026

Vadodara, Gujarat

- Contributed to the full-stack development of **Tyroo Placement OS**, building student dashboards, a placement-drive calendar, and analytics modules with **Hono, Supabase, and Prisma**.
- Translated product requirements and prototypes into responsive desktop and mobile workflows for placement-management and mock-interview features.
- Collaborated across product and engineering to develop reusable workflows within implementation constraints and accessible interface requirements.

Projects

Harvest Relay - Food Redistribution Platform

Next.js, Prisma, Neon, Auth.js, MapLibre, Ably

Live Demo

- Engineered a role-based food-rescue workflow for donors, NGOs, and volunteers with **top-three nearest-NGO matching**, first-acceptance flow, and end-to-end delivery tracking.
- Built time-sensitive volunteer dispatch with expiring offers, automatic reassignment, **OTP verification**, GPS ingestion, and geofenced arrival automation.
- Implemented real-time donor/NGO tracking with map milestones, immutable handoff timelines, in-app notifications, and **Ably** updates backed by database retry delivery.

IELTSPrep AI

Next.js, Express, TypeScript, Supabase, OpenRouter, Groq, LiveKit

Live Demo

- Built and deployed a full-stack IELTS platform with authenticated speaking, writing, reading, and listening workflows, session history, and module analytics.
- Integrated streamed **OpenRouter LLM** evaluation for essays and speaking responses with grammar, vocabulary, band-score feedback, and a personalized study planner.
- Built a real-time voice examiner using **LiveKit and Groq Whisper** transcription, persisting submissions, session history, and analytics in Supabase.

AURUM QMS - Clinical Operations Platform

Next.js, TypeScript, Supabase, PostgreSQL, shadcn/ui, pdf-lib

Live Demo

- Built a role-aware clinical operations platform for patients, doctors, admins, laboratory technicians, and pharmacy staff across appointments, real-time queues, records, diagnostics, and prescriptions.
- Connected laboratory orders and reports, pharmacy fulfillment, and discharge workflows; generated authenticated downloadable PDFs combining diagnosis, notes, lab reports, medicines, and status.
- Implemented shared **Supabase-backed access control and operational state** across clinical and hospitality workflows, including reservations, rooms, allocations, and guest requests.

Selected Certifications

AWS Academy: Cloud Architecting (Apr 2026) • Cloud Foundations (Nov 2025) • Machine Learning Foundations (Nov 2025)
